SECURITY POLICY

Mid Night N Food (MNF)

Last Updated: November 9, 2025

1 Commitment to Security

At Mid Night N Food (MNF), we are committed to ensuring the safety and security of our community—students, vendors, and delivery partners. We take the protection of your data seriously and strive to maintain the highest standards of security on our platform.

2 Responsible Disclosure Program

We recognize the vital role that security researchers and our tech-savvy student community play in keeping platforms safe. If you believe you have discovered a vulnerability in MNF's website or mobile application, we encourage you to disclose it to us responsibly.

We ask that you:

- **Do not exploit** the vulnerability or use it to access data that does not belong to you.

- **Give us reasonable time** to investigate and mitigate the issue before disclosing it publicly.

- **Provide detailed steps** to reproduce the issue so our engineering team can validate and fix it quickly.

3 How to Report an Issue

Currently, we do not use third-party bug bounty platforms. Please submit any security-related issues directly to our engineering team via email.

Email: security@midnightnfood.com

Please include the following in your report:

- Description of the vulnerability.

- Steps to reproduce the issue (screenshots or videos are helpful).

- Potential impact of the vulnerability.

4 Our Promise

We are committed to addressing all valid security issues in a timely and responsible manner. We will:

- Acknowledge receipt of your report promptly.

- Keep you updated on the progress of the fix.

- Acknowledge your contribution in our "Security Hall of Fame" (with your permission) once the issue is resolved.

Note: As a student startup, we may not currently offer monetary bounties, but we deeply value and will officially recognize your contributions to keeping our campus community safe.
